To Whom It May Concern:

With the eminent arrival of Walmart to our community, we at the Edson & District Chamber of Commerce chose to be pro-active concerning the independent businesses in our community.

In order to alleviate fears about Big Box retail, we hired Roy Prevost, authority on Big Box retail, to help our independent business community gain confidence and prepare them for Walmart.

Roy delivered an upbeat, humorous workshop that provided all participants with the tools and techniques necessary for independent business to prosper in the Big Box retail world.

We highly recommend Roy Prevost as a speaker and workshop facilitator to any community who are concerned about their local businesses being able to compete in a Big Box retail environment.

We received a very positive feedback from all who attended .

Sincerely,
Kelly Barrett – manager
Edson & District Chamber of Commerce
